PLANCHE D'INTERCHANGEABILITÉ

12/75

UTILISATION

A. Références des fournitures

- Elles sont indiquées en haut et en bas des tableaux.
- Pour connaître le numéro de référence d'une fourniture donnée, se reporter :
 1. A la *planche technique* du calibre concerné qui comporte les photographies des différentes fournitures du calibre avec leurs numéros respectifs.
 2. A la *planche des références* qui indique la désignation exacte correspondant à chaque numéro.

B. Numéros des calibres

- Ils sont indiqués à gauche des tableaux.
- Pour identifier un calibre, lire le numéro qui est frappé sur la platine (en général sous le balancier).

C. Utilisation des tableaux

- Chercher le numéro de référence de la fourniture en haut ou en bas des tableaux.
- Suivre la colonne relative à ce numéro jusqu'à l'intersection avec la ligne relative au numéro du calibre.

— Cette intersection est marquée par une case
— Plusieurs cas peuvent se présenter :

1. (Case vide)
Il n'existe pas de fourniture correspondant à cette case
2. (Case colorée)
Dans une même colonne, les cases de la même couleur représentent des fournitures interchangeables entre elles
3. (Case avec un cercle)
Fourniture non interchangeable avec les fournitures des autres calibres
4. (Case avec un triangle noir)
Fourniture ayant subi une ou plusieurs modifications entraînant la non-interchangeabilité, sans que le numéro du calibre ait été modifié. Dans ce cas adresser un modèle avec la commande.
5. (Cases avec points noirs reliés entre eux par une ligne horizontale)
Fournitures interchangeables entre elles bien qu'ayant des numéros de référence différents.

INTERCHANGEABLE PART LIST

HOW TO READ IT

A. Watch part references

- They appear at the top and bottom of the charts
- To find out the reference number of a watch part refer to :
 1. The *technical plate* of the calibre which includes the photographs of the various parts in the calibre with the corresponding numbers.
 2. The *reference plate*, which gives the exact name for each number.

B. Calibre numbers

- They appear on the left side of the charts
- To establish the number of a calibre, read the number stamped on the plate (generally under the balance wheel).

C. Use of the charts

- Look for the reference number of the part at the top or bottom of the charts
- Go down the column corresponding to this number until it crosses the line of the calibre number

AUSWECHSELBARKEITSLISTE

GEBRAUCHSANWEISUNG

A. Furniturenreferenzen

- Sie sind oben und unten auf den Tabellen angegeben
- Um die Referenznummer eines Teils festzustellen ist folgende Dokumentation zu benutzen :
 1. Die *technische Platte* des betreffenden Kalibers, woraus die Bilder der verschiedenen Furnituren mit deren Referenznummern zu ersehen sind.
 2. Die *Referenzenplatte*, die die genaue Bezeichnung jeder Referenznummer angibt.

B. Kalibernummern

- Sie sind links auf den Tabellen angegeben
- Um ein Kaliber zu erkennen, ist die auf der Platine geprägte Nummer zu lesen (im allgemeinen unter der Unruh).

C. Gebrauch der Tabellen

- Die Referenznummer des Teils oben oder unten auf den Tabellen zu lesen
- Die Spalte dieser Referenznummer entlang gehen bis zum Kreuzpunkt mit der Linie der Kalibernummer

LAMINA DE INTERCAMBIABILIDAD

COMO SE UTILIZA

A. Referencias de las fornitures

- Estan indicadas arriba y abajo en los cuadros
- Para enterarse del numero de referencia para una pieza particular hay que referirse a :
 1. La *lamina técnica* del calibre correspondiente que lleva las fotografías de las varias fornitures del calibre con sus propios números.
 2. La *lamina de referencias* que indica la designación correcta que corresponde a cada numero.

B. Numeros de los calibres

- Estan indicados a la izquierda de los cuadros
- Para identificar un calibre, leer el numero que esta acunado sobre la platina (generalmente debajo del volante)

C. Lectura de los cuadros

- Leer el numero de referencia de la forniture arriba o abajo en los cuadros
- Seguir la columna de este numero hasta que cruce con la linea del numero del calibre

— An diesem Kreuzpunkt steht ein vierckiges Feldchen
— Verschiedene Fälle sind daran möglich :

1. (Leeres Feldchen)
In diesem Fall ist kein Teil vorhanden
2. (Farbiges Feldchen)
In einer Spalte bezeichnen die Feldchen der gleichen Farbe die miteinander auswechselbaren Teile
3. (Feldchen mit Kreis)
Der Teil ist mit den Teilen anderer Kaliber nicht auswechselbar
4. (Feldchen mit schwarzem Dreieck)
Teil, der einmal oder mehrmals geändert wurde und dadurch nicht auswechselbar ist, obwohl die Kalibernummer gleich geblieben ist. In diesem Fall muss man der Bestellung ein Muster beilegen.
5. (Feldchen mit schwarzen Punkten, die durch eine waagerechte Linie miteinander gebunden sind)
Miteinander auswechselbare Teile, obwohl die Referenznummern verschieden sind.

— En este cruce hay una casilla
— Varios casos pueden presentarse :

1. (Casilla vacía)
No hay fornitura que corresponda a esta casilla
2. (Casilla colorada)
En una misma columna las casillas de una misma color indican fornitures intercambiables entre sí
3. (Casilla con un círculo)
Fornitura que no esta intercambiable con las fornitures de los otros calibres
4. (Casilla con un triángulo negro)
Fornitura que fué modificada una o varias veces lo que suprime la intercambiabilidad sin modificación del número del calibre.
En este caso es preciso acompañar el pedido de una muestra.
5. (Casillas con puntos negros vinculadas entre sí con una línea horizontal)
Fornitures intercambiables entre sí aunque los números de referencia están diferentes.
